LOCAL 555 – SASKATCHEWAN, MANITOBA
AND NORTHWESTERN ONTARIO
NOTICE OF CORE HEALTH & SAFETY CERTIFICATION CARDS

BCA of Saskatchewan, Manitoba and Northwestern Ontario Contractor:

The BCA would like to inform our member contractors that the IBB Local 555 Training Coordinator is issuing wallet-sized cards to its members documenting the completion and expiry dates of the required core health & safety courses under Article 7.06 of the Collective Agreement.

The implementation of the Core Health & Safety Certification cards demonstrates IBB Local 555's commitment to upholding the Job Ready Dispatch commitments made through the Collective Agreement.

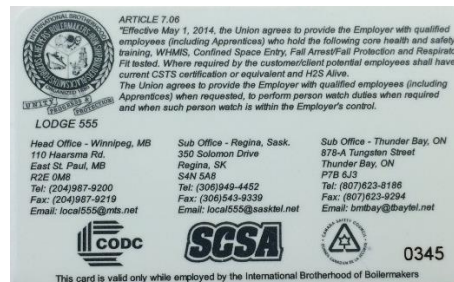

The BCA recommends that when contractors place an order with the Union, that their requests for Boilermakers also includes a requirement that they arrive Job Ready in keeping with the terms of the Collective Agreement. Contractors should also request a copy of the dispatched Boilermakers' Core Health & Safety Certification issued by Local 555 for their employee files.

An example of the card is as follows:
